

The image displays a 6x6 grid of 36 pie charts, each with a black outline. The charts are arranged in six rows and six columns, showing a sequence of color changes. The colors used are yellow, red, and blue. The sequence starts with a yellow pie chart in the top-left corner (row 1, column 1). As the sequence progresses, the pie charts show increasing portions of red and blue, indicating a transition from yellow to red to blue. The sequence ends with a blue pie chart in the bottom-right corner (row 6, column 6). The transition is gradual, with the pie charts showing increasing portions of the new color as the sequence progresses.
